Attention: ORC-158

Dear Ms. Hilsman:

We are in receipt of your letter of October 15, 2004 which arrived in our office on October 20, 2004.

Our letter of September 13, 2004 was intended to be the report. At the time of the September 13, 2004 letter we did not have pictures. We hereby amend our September 13, 2004 letter by sending the Environmental Protection Agency ("EPA") the 28 enclosed photographs.

The area of removal was determined based on the EPA's amended order per our prior correspondence of September 7, 2004 (the Seventy-Two Hour Notice); as clarified by your letter of September 9, 2004 and our confirmation of that clarification on September 10, 2004.

The photographs show a measured plastic pipe was used to determine the location of the area of removal; the equipment used in the removal; the placement of equipment during the removal; the removal of three feet and larger natural riprap placed in 2002; and the placement of the removed riprap upon the upland (roughly 25 to 35 three foot or larger riprap).

Deborah Hilsman, Esq.
October 22, 2004 – Page 2

With the filing of these 28 photographs amending our September 13, 2004 letter, Bridgeview has complied with the amended order including paragraph 2.4 of the November 29, 2002 original order. We hope the delay in getting the 28 photographs did not inconvenience you or the agency.

Sincerely yours,

A handwritten signature in cursive script that reads "Clarence Greenwood". The signature is written in dark ink and is positioned to the right of the typed name.

Clarence H. Greenwood
